

▶ MATCH PP-VAG 2.6

Plug & Play Quadlock cable harness ◀

The Plug & Play Quadlock cable harness PP-VAG 2.6 is made for the easy connection of a MATCH PP 86DSP amplifier to a 6-channel OEM head unit with Quadlock connection such as Audi and Seat.

Features:

- Plug & Play connectors for an easy connection of a PP 86DSP-amplifier and MATCH Plug & Play subwoofer
- Quadlock-connection for connecting a 6-channel VAG head unit
- Integrated fuse
- Snake-Skin jacket to protect single wires
- Cable length 2.00 Meters
- Further information on the vehicle compatibility can be found in our adaptor database at www.audiotec-fischer.com

Anschlüsse:

- ① 8-pole MOLEX female connector for connecting a MATCH Plug & Play subwoofer
- ② 20-pole MOLEX male connector for connection to the system connector input of the amplifier
- ③ 4-pole MOLEX male connector for connection to the highlevel input E + F of the amplifier*
- ④ 8-pole MOLEX male connector for connection to the speaker output E – H of the amplifier
- ⑤ Quadlock male connector for connection to the OEM head unit
- ⑥ Quadlock female connector for connection to the original cable harness

*Depending on the installed OEM sound system the output channels E + F of the OEM head unit either provides the highlevel signals of the front woofers (front left and front right) or of the center speaker and subwoofer.
